

# Giving you the complete picture

SIMSYS™ is a specialist skin analysis system with enhanced lesion visualization and comprehensive patient image and data storage.

SIMSYS comprises sophisticated scanning and software technologies to provide a powerful screening resource with image and patient management database.

- Capture
- Analyze and Track
  - Streamline

## Capture

# Analyze &Track

### Streamline

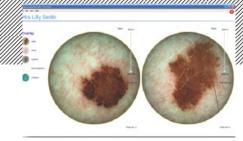

Non-invasive, fast

Capture high-quality images via the patient-friendly hand-held scanner. SIMSYS™ uses SIAscopy™ - clinically proven technology providing a unique level of detail and information from up to 2mm beneath the skin:

MedX Health Corp. Reverse engineering or disassembly is prohibited

- Dermatoscopic view
- Blood view
- Melanin view
- Dermal melanin view
- Collagen view

40x magnification capability

Analyze the images using the powerful SIMSYS system tools. These help you to assess the lesion quickly and easily.

- Slider tool to fade between SIAscan<sup>™</sup> and dermatoscopic
- Pan and zoom with up to 40x magnification
- Choice of in-built scoring systems
- View comparison and overlay functions

Track changes in lesions using robust image storage features which facilitate direct on-screen comparison of past and present lesion images, allowing you to monitor changes over time

Melanin view

Collagen view

Dermal melanin view

High resolution images

Simplified patient management

Streamline patient data and image management with the comprehensive SIMSYS database. Secure and easy to use, SIMSYS gives you a complete overview of each patient.

- Flexible image and document database
- Consolidate SIAscans, images, and other documents into one unique patient record

#### SIMSYS package contains:

- SIAscope V Scanner and base
- SIMSYS Software
- Clinical Reference Guide
- SIMSYS User documentation
- USB 2.0 Cable
- USB License Key
- Matching Fluid

Minimum PC-specification for SIMSYS

- 1 GHz Processor
- Windows XP, Vista 32, Windows 7/8
- 1 Gb RAM
- 32 Mb Graphics Memory (DirectX 9 Compatible)
- 1024 x 768 Min. Screen resolution
- 2 x USB connections USB 2.0 or 3.0
- A built-in or compatible external optical drive
